**Re: Parker Broadcasting of Dakota Licensee, LLC
CSR-8921-M, MB Docket 16-69**

Dear Mr. Lake:

On behalf of Cable One, Inc., I am writing to update the record in the above-captioned channel placement carriage complaint proceeding, specifically Cable One's ability to carry KRDK on its authorized channel 4 in light of the Commission's decision in *Gray Television Licensee, LLC, KVLV-TV, Fargo, North Dakota, Petition for Waiver and Request for Reassignment of PSIP Channels*, Letter Order (Med. Bur. rel. June 28, 2016). Cable One currently has a valid retransmission consent agreement with Gray Television requiring the Fargo, North Dakota system to carry a multicast stream of Gray's station KVLV-TV on channel 4. At this time, without a specific order in MB Docket 16-69 from the Commission ordering carriage of KRDK on the cable system's channel 4, Cable One is bound by that contract and unable to begin carriage of KRDK on that channel. Should the Commission issue such an order, Cable One is in a position to do so immediately after all required subscriber notice periods have run, and in not more than 60 days' time.

Should there be any further questions about this matter, please contact the undersigned.

Sincerely,

Craig Gilley
Attorney for Cable One, Inc.

cc: Kenneth Lewis, FCC
Davina Sashkin, Counsel for Parker Broadcasting of Dakota Licensee, LLC
Robert Folliard, Assistant Secretary for Gray Television Licensee, LLC
